ABOUT THE OVERBERG

The Overberg has always been considered as the breadbasket of the Cape due to grain farming in the area. Farms and wheat fields are bordered by mountains covered in fynbos and coastal scenes with many shades of blue. One of the most scenic drives in the world, Clarence Drive or locally known as the R44, is a popular setting especially for vehicle commercials. The same goes for the gravel roads through the forests in Elgin Valley Grabouw.

In Gansbaai the presence of marine wildlife has documentary film crews almost constantly filming. Gansbaai is known for the marine Big Five – sharks, whales, penguins, seals and dolphins.

There are a few hot spots in the Overberg that hosts regular film shoots with many hidden gems to be explored. Hermanus, Pringle Bay, Kleinmond, Gansbaai, Elgin, Arniston and Bot River are amongst the most popular.

[Union Pictures](#), one of the leading animal training companies in South Africa is based in Bot River and does around 170 film jobs per annum of which 30% is on the farm itself. They have been supplying trained wild, exotic and domestic animals to the film and television industry since 1987.
